Re: Feedback on Discussion Paper, RET Review. Support for 'Opt-in' proposal

2 December 2012

Dear Sir/Madam

Windlab congratulates the CCA on the Review to date and looks forward to the final report. We apologise on the fact this feedback is beyond the stated deadline for feedback on the Discussion Paper. As a Renewable Generator I would like to make clear our support for the 'Opt-in' facility for large energy users. Firstly it would allow more customers for our product and go some way to reducing the concentration in the retail sector. Secondly it would support smaller projects which would be well matched in size with these new customers. This measure would go some way to countering current strong drivers toward large projects; which can have sub-optimal environmental and social outcomes.

Yours Sincerely

Luke Osborne
